29 March 1971

MEMORANDUM FOR : ADDP

SUBJECT : CS Historical Program

1. To date the History of TSD in the Far East is partially completed and first drafts are ready on the balance of the Far Eastern activity. Research is well along in the Headquarters, European and Near East areas. The prospects of our meeting the 31 December 1971 deadline, however, are remote.

2. Requirements levied on TSD have reached and maintained a level that requires all of our available manpower to complete, and as a consequence, I have been unable to assign more people to the task of writing the TSD History. Inasmuch as I see no diminution in the trend of these operational requirements I have requested C/CSPS to provide TSD, at least on a temporary basis, with personnel who may be surplus to CS needs in other divisions. Beyond that, in justice to servicing operational demands, I cannot conscientiously supply more than occasional part-time help to the historical program.
